

Web & Graphic Design

Visual solutions for your business!

Web Design

Geer Services specializes in well designed content oriented web sites. Combined with easy navigation, our sites will allow your customers to find the information they are seeking efficiently without the hassle of information overload.

Business Identity

If you have a new business or want to change your current identity we can design a complete package for your organization including web site, brochures, business cards, banners and direct mail pieces.

Web & Graphic Design Solutions

- Websites That Work
- Cohesive Business Identities
- Compelling Logo Designs
- Great Photography

Logo Design

Geer Services offers professional image and logo design to help solidify your organization's image.

Digital Photography

Custom digital photography can be created for use in online or printed media. Photo enhancements and restoration services are also available. Our digital photography products are highly customizable for your needs.
